

**Meeting of heads in Petofi Sandor School,  
Cristuru Secuiesc, Romania  
7-12 April 2011**

In the course of the Comenius Program the representatives of our two partner schools namely the Weores Sandor Primary and Art School in Gyömrő and the Giuseppe Mazzini School in Lanciano have visited our school from 7

to 12 April 2011. The main object of the meeting was to prepare for the second project meeting held in Italy.

At the reception on Friday Simó Ildikó head of our school has emphasized the importance of the Comenius project and the partner relations it offers. Rafai Emil mayor of our town has also greeted our Italian and Hungarian partners.

Our guests had a chance to meet our teaching staff as well and managed to exchange professional experiences in spite of the initial language difficulties. They had a view of our school by visiting our classrooms, cabinets and the sports hall.

During the workshop the leaders of the Comenius teams discussed about the detailed program and administrative issues related to the Italian project meeting. They also talked about the procedures and expenses of the project products. At the same time we presented the activities organized by the Comenius team of our school.

At the weekend we went on a trip together with our partners touring those places which are going to be visited by the students of the three partner schools next year in the course of the project

meeting in Cristuru Secuiesc. This was the first visit in Transylvania for Alessandro Mariotti head of the school in Lanciano who has been delighted by the places we visited together.
